No other devices are authorized. Whipped Cream Chargers are for Food and Beverage preparation only. We will refuse to sell Nitrous Oxide (N2O) Cream Charger cartridges to you if we suspect you intend to misuse them or are under 18.

### **Recycling**

*Gas cartridges are not refillable. They are made with 100% recyclable steel. They are safe to put in with your tin cans etc for collection. Please do not dispose of unused cartridges!*

### **Gas Cartridge Safety Warning**

*Our gas cartridges are filled with liquified gas under high pressure. Puncturing the cartridge can cause freezing gas to escape so you may want to protect your hands and face. Ensure cartridge is empty of gas before removing from your device. Cartridges get freezing cold when punctured. If you are burnt by freezing gas you must immediately seek medical advice. A high pressure gas burn can cause deep tissue damage which is not immediately obvious at the time of the injury.*
