Safety Data Sheet

## Section 01 Identification

Product Identifier
Other Means of Identification
Product Use and Restrictions
on Use
Initial Supplier Identifier

Sodium Metabisulphite<br>Sodium Metabisuphite, Solid<br>Sodium Metabisulphite FG

| Other Means of Identification |  |
| :--- | :--- |
| Product Use and Restrictions | Disodium disulphite; Sodium pyrosulphite; |
| on Use | Antioxidant, bleaching and disinfectant agent in textile, laundering, paper, and fermentation |
| industries. Production of sulphur dioxide. Dechlorination. |  |
| Initial Supplier Identifier | ClearTech Industries Inc |
|  | 1500 Quebec Avenue |
|  | Saskatoon, SK. Canada |
|  | S7K 1V7 |
|  | Phone: 800.387.7503 |
|  | Fax: 888.281.8109 |
|  | www.cleartech.ca |
| Prepared By | ClearTech Industries Inc. technical writer |
| 24-Hour Emergency Phone | 306.664.2522 |

## Section 02 Hazard Identification

## Physical Hazards

This product does not qualify for any physical hazard class under WHMIS 2015

## Health Hazards

| Acute toxicity - oral | Category 4 |
| :--- | :--- |
| Serious eye damage / eye <br> irritation | Category 1 |

Signal Word
Danger
Hazard Statements
H302 Harmful if swallowed.
H318 Causes serious eye damage.

## Pictograms

## Precautionary Statements

## Prevention

P264 Wash affected body parts thoroughly after handling.
P270 Do not eat, drink or smoke when using this product.
P280 Wear eye protection, face protection.

## Response

P301 P312 P330 IF SWALLOWED: Rinse mouth. Call a POISON CENTER or doctor if you feel unwell.
P305 P351 P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present
P310 and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.

## Disposal

P501 Dispose of contents / container in accordance with all federal, provincial and / or local regulations including the Canadian Environmental Protection Act.

## Hazards Not Otherwise Classified

Not available

## Supplemental Information

Not available

## Section 03 Composition / Information on Ingredients

## Hazardous Ingredients:

| Chemical name | Common name(s) | CAS number | Concentration (w/w\%) |
| :--- | :--- | :--- | :--- |
| Disodium disulphite | Sodium metabisulphite | $7681-57-4$ | $60-100 \%$ |

## Section 04 First-Aid Measures

## Description of necessary first-aid measures

## Inhalation Get medical advice / attention if you feel unwell or are concerned.

Ingestion Call a POISON CENTER or doctor if you feel unwell. Rinse mouth.
Skin Rinse skin with lukewarm, gently flowing water / shower for 5 minutes or until product is removed. If skin
irritation occurs or if you feel unwell: Get medical advice / attention.

$$
\begin{array}{ll}
\text { Eye } \\
\text { contact } & \text { Remove source of exposure or move person to fresh air. Rinse eyes cautiously with lukewarm, gently flowing } \\
\text { water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. } \\
\text { Continue rinsing for } 30 \text { minutes. Take care not to rinse contaminated water into the unaffected eye or onto the } \\
\text { face. Immediately call a POISON CENTER or doctor. }
\end{array}
$$

## Most important symptoms and effects, both acute and delayed

| Inhalation | May cause respiratory irritation. Contact with acids, heat or sunlight realeases sulphur dioxide, which <br> causes serious respiratory irritation and is toxic if inhaled. |
| :--- | :--- |
| Ingestion | Harmful if swallowed. This product may provoke a response in those who are sensitive to sulphites. |
| Skin contact | This product may provoke a response in those who are sensitive to sulphites. |
| Eye contact | Causes serious eye damage. |
| Further information | For further information see Section 11 Toxicological Information. |

## Section 05 Fire Fighting Measures

Suitable extinguishing media Extinguish fire using extinguishing agents suitable for the surrounding fire.

| Unsuitable extinguishing <br> media | Not available |
| :--- | :--- |
| Specific hazards arising from |  |
| the chemical |  |$\quad$| In the event of a fire oxides of sulphur may be released. Thermal decomposition occurs at |
| :--- |
| $150^{\circ} \mathrm{C}$. |
| Special protective equipment <br> for fire-fighters |
| Wear NIOSH-approved self-contained breathing apparatus and chemical-protective |
| clothing. |

## Section 07 Handling and Storage

Precautions for Safe Handling Use proper equipment for lifting and transporting all containers. Use sensible industrial hygiene and housekeeping practices. Wash thoroughly after handling. Avoid all situations that could lead to harmful exposure.
Inspect containers for damage or leaks before handling. If the original label is damaged or missing replace with a workplace label. Have suitable emergency equipment for fires, spills and leaks readily available.

| Conditions for Safe Storage | Store in a cool, dry, well-ventilated area, out of direct sunlight, away from heat sources and <br> incompatible materials. Always store in original labeled container. Keep containers tightly <br> closed when not in use and when empty. Empty containers may contain hazardous <br> residues. Protect label and keep it visible. |
| :--- | :--- |
| Incompatibilities | Acids, such as sulphuric, nitric, hydrochloric, phosphoric, flurosilicic (HFSA), sulphonic, <br> acetic, citric, oxalic, and formic. |
| Oxidizing agents, such as oxygen, hydrogen peroxide, sulphuric and nitric acids, <br> hypochlorites and permanganates. <br> Exposure to air or mosture accelerates decomposition. |  |

## Section 08 Exposure Controls and Personal Protection

## Exposure limits

## Component

Sodium metabisulphate

## Engineering controls

## Ventilation Requirements

Other

## ,

| Regulation | Type of listing | Value |
| :--- | :--- | :--- |
| NIOSH | REL-TWA | $5 \mathrm{mg} / \mathrm{m}^{3}$ |
| ACGIH | TWA | $5 \mathrm{mg} / \mathrm{m}^{3}$ |

Mechanical ventilation (dilution or local exhaust), process or personnel enclosure and control of process conditions should be provided in accordance with all fire codes and regulatory requirements. Supply sufficient replacement air to make up for air removed by exhaust systems.
A soak hose and eyewash station or emergency shower and eyewash station should be available, tested, and be in close proximity to the product being handled in accordance with provincial regulations.

## Protective equipment

The following are recommendations only. It is the responsibility of the employer / user to conduct a hazard assessment of the process in which this product being used and determine the proper engineering controls and PPE for their process. Additional regulatory and safety information should be sought from local authorities and, if needed, a professional industrial hygienist.

| Eye and face protection | Where there is potential eye or face exposure, tightly fitting safety goggles and a face shield <br> or a full face respirator or similar protective equipment which protects the wearer's face and <br> eyes are recommended. Contact lenses are not recommended; they may contribute to <br> severe eye injury. |
| :--- | :--- |
| Hand and body protection | Where handling this product it is recommended that skin contact is avoided. <br> Respiratory protection |
| In case of insufficient ventilation wear suitable respiratory equipment. |  |
| Thermal hazards | Not available |

## Section 09 Physical and Chemical Properties

| Appearance |  |
| :---: | :---: |
| Physical state | Solid |
| Colour | White |
| Odour | Pungent; sulphurous |
| Odour threshold | Not available |
| Property |  |
| pH | 4.0-4.6 @ 1\% |
| Melting point / freezing point | Decomposes |
| Initial boiling point and boiling range | Decomposes |
| Flash point | Not applicable |
| Evaporation rate | Not available |
| Flammability | Non-flammable |
| Upper flammable limit | Not available |
| Lower flammable limit | Not available |
| Vapour pressure | Not available |
| Vapour density | Not available |
| Relative density | $1.48 \mathrm{~g} / \mathrm{cm}^{3}$ |
| Solubility | Soluble in water |
| Partition coefficient: $\mathbf{n}$ octanol/water | Not available |
| Auto-ignition temperature | Not available |
| Decomposition temperature | $150^{\circ} \mathrm{C}$ |
| Viscosity | Not applicable |
| Specific gravity | Not applicable |
| Formula | $\mathrm{Na}_{2} \mathrm{~S}_{2} \mathrm{O}_{5}$ |
| Molecular weight | $190.11 \mathrm{~g} / \mathrm{mol}$ |

## Section 10 Stability and Reactivity

Reactivity
Reacts with acids to form toxic and corrosive sulphur dioxide.

| Stability |  | This product is stable if stored according to the recommendations in Section 07. Exposure to sunlight or high temperatures may cause the degradation of this product over time. |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Possibility of hazardous reactions |  | Hazardous polymerization will not occur. |  |  |  |
| Conditions to avoid |  | Avoid contact with incompatible materials. Do not heat. |  |  |  |
| Incompatible materials |  | Acids, such as sulphuric, nitric, hydrochloric, phosphoric, flurosilicic (HFSA), sulphonic, acetic, citric, oxalic, and formic. <br> Oxidizing agents, such as oxygen, hydrogen peroxide, sulphuric and nitric acids, hypochlorites and permanganates. <br> Exposure to air or mosture accelerates decomposition. |  |  |  |
| Hazardous decomposition products |  | Thermal decomposition may produce oxides of sulphur. Thermal decomposition occurs at $150^{\circ} \mathrm{C}$. |  |  |  |
| Section 11 Toxicological Information |  |  |  |  |  |
| Acute Toxicity (LD50 values) |  |  |  |  |  |
| Component <br> Sodium metabisulphite |  | Route | Species | Value | Exposure time |
|  |  | Oral | Rat | 1131 mg/kg |  |
|  |  | Dermal | Rat | >2000 mg/kg |  |
| Toxic Health Effect Summary |  |  |  |  |  |
| Chemicalcharacteristics $\quad$ This chemical is a moderate reducing agent. |  |  |  |  |  |
| Skin | This product may provoke a response in those who are sensitive to sulphites. Not available |  |  |  |  |
| Ingestion | Harmful if swallowed. This product may provoke a response in those who are sensitive to sulphites. |  |  |  |  |
| Inhalation | May cause respiratory irritation. Contact with acids, heat or sunlight realeases sulphur dioxide, which causes serious respiratory irritation and is toxic if inhaled. |  |  |  |  |
| Eye contact | Causes serious eye damage. |  |  |  |  |
| Sensitization | This product may provoke a response in those who are sensitive to sulphites. Sodium metabisulphite was not found to be sensitizing in the standard skin sensitization test. |  |  |  |  |
| Mutagenicity | This product and its components at their listed concentration have no known mutagenic effects. |  |  |  |  |
| Carcinogenicity | ACGIH has classified metabisulphites as category A4-Not classifiable as a human carcinogen. IARC has classified metabisulphites as group 3 , not classifiable as to its carcinogenicity to humans. |  |  |  |  |
| Reproductive toxicity | This product and its components at their listed concentration have no known reproductive effects. |  |  |  |  |
| Specific organ toxicity | This product and its components at their listed concentration have no known effects on specific organs. |  |  |  |  |
| Aspiration hazard | Not available |  |  |  |  |
| Synergistic materials | Not available |  |  |  |  |

Section 12 Ecological Information

## Ecotoxicity

| Component | Type | Species | Value | Exposure Time |
| :--- | :--- | :--- | :--- | :--- |
| Sodium metabisulphite | EC50 | Daphnia | $89 \mathrm{mg} / \mathrm{L}$ | 48 hours |

| Component | Type | Species | Value | Exposure Time |
| :--- | :--- | :--- | :--- | :--- |
|  | LC50 | Fish | $32 \mathrm{mg} / \mathrm{L}$ | 96 hours |
| EC50 | Algae | $48 \mathrm{mg} / \mathrm{L}$ | 72 hours |  |
| Biodegradability | The domestic substance list categorizes sodium metasilicate as persistent. |  |  |  |
| Bioaccumulation | The domestic substance list categorizes sodium metasilicate as non-bioaccumulative. |  |  |  |
| Mobility | This product is water soluble, is not predicted to adsorb to soil and may contaminate ground <br> water. | Cemical oxygen demand (COD): $169 \mathrm{mg} / \mathrm{g}$ |  |  |
| Other adverse effects |  |  |  |  |

## Section 13 Disposal Considerations

Waste From Residues /
Unused Products
Contaminated Packaging

Dispose in accordance with all federal, provincial, and local regulations including the Canadian Environmental Protection Act.
Do not remove label, follow label warnings even after the container is empty. Empty containers should be recycled or disposed of at an approved waste handling facility.

## Section 14 Transport Information

| UN number | Not available |
| :--- | :--- |
| UN proper shipping name | Not available |
| and description |  |
| Transport hazard class(es) | Not available |
| Packing group | Not available |
| Excepted quantities | Not available |
| Environmental hazards | Not listed as a marine pollutant under Canadian TDG Regulations, schedule III. |
| Special precautions | No special provisions |
| Transport in bulk | ERAP index: not available |
|  | MARPOL 73/78 and IBC Code: <br> This product is not listed in Chapter 17 of the IBC Code. <br> Secure containers (full or empty) during shipment and ensure all caps, valves, or closures <br> are secured in the closed position. |
| Additional information |  |

TDG PRODUCT CLASSIFICATION: This product has been classified on the preparation date specified at section 16 of this SDS, for transportation in accordance with the requirements of part 2 of the Transportation of Dangerous Goods Regulations. If applicable, testing and published test data regarding the classification of this product are listed in the references at section 16 of this SDS.

## Section 15 Regulatory Information.

NOTE: THE PRODUCT LISTED ON THIS SAFETY DATA SHEET HAS BEEN CLASSIFIED IN ACCORDANCE WITH THE HAZARD CRITERIA OF THE CANADIAN HAZARDOUS PRODUCTS REGULATIONS. THIS SAFETY DATA SHEET CONTAINS ALL INFORMATION REQUIRED BY THOSE REGULATIONS.

All components of this product appear on the domestic substance list.

## Section 16 Other Information

Date of latest revision: September 11, 2019

Note: The responsibility to provide a safe workplace remains with the buyer / user. The buyer / user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the buyer / user to comply with all applicable laws and regulations regarding handling, using, reselling and shipping this product.

## Attention: Receiver of the chemical goods / SDS coordinator

As part of our commitment to the RDC Responsible Distribution® initiative, ClearTech Industries Inc. and its associated companies require, as a condition of sale, that you forward the attached Safety Data Sheet(s) to all affected employees, customers, and end-users. ClearTech will send any available supplementary handling, health, and safety information to you at your request.
If you have any questions or concerns please call our customer service center.
